

# Who is not fascinated about the Indian cuisine ?

## Introduction:

India is rightly called the Land of Spices. No country in the world produces as many varieties of spices as India. According to Indian Food Theory, our food has 6 different flavours: sweet, salty, bitter, sour, astringent and spicy. Surely when you come to India you will be fascinated by its food and find best Indian cuisine providing restaurants.

So in this project we will be finding all the top Indian cuisine restaurants in the capital of delhi for the tourists.

# New delhi

The capital of India  
Has lot of restaurants  
having the famous Indian  
cuisine . but finding the  
best place in order to  
remeber your tour and to  
lick your fingers till your  
satisfaction , here is the  
project created by me for  
you to find some of the  
best restaurants for  
Indian cuisine

# How is it possible ?

- Collect the new york city data
- Using FourSquare API we will find all venues for each neighborhood.
- Filter out all venues that are Indian Restaurants.
- Find rating , tips and like count for each Indian Restaurants using FourSquare API.
- Using rating for each restaurant , we will sort that data.
- Visualize the Ranking of neighborhoods using folium library(python)

# Questions that will be answered are

- What is best location in delhi for Indian Cuisine ?
- Which areas have potential Indian Restaurant Market ?
- Which all areas lack Indian Restaurants ?
- Which is the best place to stay if I prefer Indian Cuisine ?

# Analysis

We will import the required libraries for python.

- pandas and numpy for handling data.
- request module for using FourSquare API.
- geopy to get coordinates of City of New York.
- folium to visualize the results on a map

Now , with the use of my project created with  
foursquare enjoy your food at different famous  
spots in Delhi , India.  
And make your travel to Delhi the best ever.

Thank you
